

REGIONAL BUSINESS INTEGRITY CONFERENCE

CULTURE OF BUSINESS INTEGRITY – PATHWAY TO SUSTAINABILITY AND SUCCESS

06 – 07 MARCH 2017, SINGAPORE

INTRODUCTION

Corruption is a key obstacle to progress, prosperity and sustainability. It undermines the rule of law and impacts economic and social development, disproportionately hurting the most vulnerable groups. For companies, corruption adds up to 10% to the total cost of doing business in many parts of the world and up to 25% to the cost of procurement contracts in developing countries.¹ Red tape and corruption especially in procurement can distort market mechanisms, prevent fair competition and deter investment. It also exposes companies to legal risks and erodes public investor trust and confidence. “Substantially reducing corruption and bribery in all their forms”² becomes crucial as we strive to promote peaceful and inclusive societies for sustainable development.

The *Regional Business Integrity Conference: Culture of Business Integrity – Pathway to Sustainability and Success* aims to provide a regional platform for private and public sector leaders, practitioners and other stakeholders from around ASEAN to promote business integrity and long-term sustainability and success through sharing of best practices and experiences.

This is also part of business integrity series under Sustainability Consortium of Professionals and Educators (SCOPE), a network of professionals and educators who are strongly committed to promote research, teaching and practice of sustainability in the region.
